

Noelle McCarthy

### High School Girls Sectional Outline

- Play new part on the piano so the section can hear what it is supposed to sound like
- Have them sing on “Do” while continuing to play the part on the piano (do as many times as needed)
- Start to take away the piano playing so they get comfortable not having the piano to back them up
- Focus on resonance and not trying to push the notes out especially as they get higher
- Once they have sang through it enough on “Do” have them sing it with the words, still focusing on good resonance and tone
