

Noelle McCarthy

Middle School Flute Sectional Outline

- Have the flutes play through each piece one at a time in their book
- Listen to them play and make sure that they are all together and that they are playing the right notes with the right fingerings
- Do not move on until it has been played well (have them practice the tricky parts if they need to)
- Play with them sometimes so that they know they are doing well and to help them if they are struggling
